PROFILE

I am a front-end developer with more than one year of experience in designing comprehensive and diverse websites. A freedom-minded person, with active leadership skills, strong time management skills and work ethics. I am a patient person who is able to work under pressure, and I believe in the importance of achieving strong and effective influence. I always strive to develop and improve my roles, and I look forward to enriching any work environment with my talent and inspiring my colleagues to work in the spirit of the university team.

WORK EXPERIENCE

FRONT END DEVELOPER
Freelancing
Dec 2022 - Present

I work to develop myself and follow daily development
This happens through learning, designing projects, designs and training, I upload it to my GitHub account and my LinkedIn account.
I am still in the experimental development stage to improve skills and find the best version of myself in this field that is beloved to me and is the source of my eternal inspiration.
